

Security Assessment Report

Perimeter Security

- Q1: Is perimeter fencing installed?

- Yes
-

- Q2: Type of fencing

- None
-

- Q3: Are perimeter gates secured with locks or electronic access?

- No
-

- Q4: Are natural barriers (hedges, water features, terrain) used as deterrents?

- Yes
-

- Q5: Is perimeter lighting adequate?

- No
-

- Q6: Are motion-activated lights installed along the perimeter?

- Yes
-

- Q7: Are early warning sensors or alarms installed?

- No
-

Entry Points

- Q1: Type of main entry doors?

- Glass
-

- Q2: Are all exterior doors reinforced with strike plates and deadbolts?

- Yes
-

- Q3: Are smart locks or keyless entry systems installed?

- Yes
-

- Q4: Are secondary locks installed on sliding doors or French doors?

- Yes

• Q5: Are doors equipped with peepholes or video doorbells?

- Yes

• Q6: Are all entry and exit points well-lit?

- Yes

• Q7: Are garage doors reinforced and equipped with security locks?

- No

• Q8: Are ground-floor windows secured with locks or security film?

- Partial Coverage

• Q9: Are window wells secured with grates or bars?

- Yes
-

Lighting & Cameras

• Q1: Are all entry points and pathways illuminated?

• Q2: Are motion-activated lights installed?

• Q3: Are security cameras installed and operational?

• Q4: Do cameras have night vision capabilities?

• Q5: Are cameras monitored remotely?

• Q6: Are cameras placed to eliminate blind spots?

• Q7: Are security system signs visible as deterrents?

Interior Security

• Q1: Is a safe room designated and reinforced?

• Q2: Are high-value items stored in a safe?

• Q3: Are safes fireproof and bolted down?

• Q4: Are interior doors lockable in case of emergency?

• Q5: Are firearms stored securely in a locked safe?

- Q6: Are security alarms installed on interior access points?

- Q7: Are motion detectors installed inside the home?
